## WEB DESIGN :: IDENTITY SITE SELF-EVALUATION

### External Stylesheet

- You have an external stylesheet that is linked to all of your html pages. \_\_\_\_\_ /2
- Your external stylesheet defines the font-family, size, and color of all of your text. \_\_\_\_\_ /2
- You defined 3 of the 4 link states in your stylesheet. \_\_\_\_\_ /2

### Tables

- You structured all of your pages using tables and they are written correctly \_\_\_\_\_ /5

### Basic HTML + Organization

- Your basic tags are written correctly and are in the right location. \_\_\_\_\_ /1
- You have no broken links. \_\_\_\_\_ /2
- Your folder structure is logical (folders are setup as instructed) \_\_\_\_\_ /2
- Your HTML + CSS are written logically. \_\_\_\_\_ /1
- Your homepage is named as index.html \_\_\_\_\_ /1
- Your site is on the server and can be accessed by a link from your intro page. \_\_\_\_\_ /2

### Navigation + Content

- You have consistent navigation on EVERY page \_\_\_\_\_ /3
- You have a header on every page that tells the site user where they are. \_\_\_\_\_ /2
- You have relevant content on every page relating to the theme of "identity" \_\_\_\_\_ /2
- You have no spelling / grammar mistakes \_\_\_\_\_ /2

### Accessibility

- Paragraphs of text are displayed using HTML and CSS, not as images \_\_\_\_\_ /2
- Images use the width, height, and alt attributes \_\_\_\_\_ /2

### Layout + Images

- All of your images are optimized to their reduction limit \_\_\_\_\_ /3
- Your slices are named by you, not Photoshop, following proper naming conventions (no spaces or funny characters, informative. Good example: nav\_about.gif \_\_\_\_\_ /2
- Bad example: Identity? 24.gif) \_\_\_\_\_ /2
- Your page layout has an obvious structure to it – items are aligned, an attempt was made at details \_\_\_\_\_ /2
- Colors are working – text is readable \_\_\_\_\_ /2

### Independent Learning (extra credit)

You took initiative and learned 2 new things while creating this web site. Explain each in detail below.
